

Adopted by the Board: 27 September 2006

P001 - OCCUPATIONAL SAFETY AND HEALTH

Centrex Metals Limited has a clear objective to continually improve its Occupational Safety and Health performance through risk management, consultation with employees and contractors and focused safety management programs.

IN FULFILLING THE COMMITMENT, CENTREX METALS LIMITED WILL:

- Operate in compliance with applicable Legislation, Regulations and Codes of Practice.
- Recognise the individual and shared responsibility all have for Occupational Safety and Health.
- Develop an Occupational Safety and Health Management System to set objectives and targets, monitor safety and health performance, identify major risks and implement mitigation strategies aimed at reducing risk and risk taking behaviours.
- Audit safety and health performance against objectives and targets.
- Encourage a pervasive safety culture through recognition and promotion of good safety behaviours.
- Ensure that employees, contractors and their employees understand and abide by Company safety and health standards.
- Provide training and consultative mechanisms to ensure employees and contractors can contribute to maintaining a safe and healthy workplace.
- Implement a Company Rehabilitation Policy in order to support the needs of persons injured in the workplace.
- Accept that management has the ultimate responsibility for the implementation of this policy.

SCOPE

The Occupational Safety and Health Policy covers all aspects of Centrex Metals operations including travel, exploration, mining, production, transport and shipping.
